

I recently received information about the adoption of a National Standard phone privacy law which would preempt the one enacted in Indiana. Let me start out by saying that I am a registered voter who cared enough to vote in the elections held approximately 1 week ago and have been very pleased with IN's telephone privacy bill. I ask that you not implement anything which would lessen the effectiveness of this bill as it has improved my life immensely. I never realized how irritating the 3-4 calls a night I was getting were until they were gone, and I would never go back. I appreciate your willingness to investigate this issue and attempt to find a unified solution to it, but here in Indiana, we have a solution that should be the yardstick whereby all others are measured. Please do not take it away from us or diminish it in any way.

Thank you,  
Donald M. Wood
